I am a Full-Stack web developer using my background in Cooking/Customer service to work with others and create fun and innovative ideas for any coding or web development projects. I have earned a certificate in Full Stack Web Development from the University of Toronto Coding Boot Camp and I am excited to put everything I've learned to the test and work with businesses or other developers to make something amazing. I'm used to working for long periods as well as in fast paced and high stress environments. I have strengths in leadership, teamwork, and determination to make sure projects are working and accessible.
